

THE FEED

CENTRAL CALIFORNIA ASSOCIATION
OF HEALTH UNDERWRITERS

A Message from the President.....

Cinco de Mayo brought us just a few degrees shy of 100 for much of the Central Valley this week, reminding us that the Central Valley springtime is short and summer is ready to rock us once again! Last summer was a strange one with almost non-existent in-person gatherings, and a general feeling of uncertainty hanging in the hot summer air. This year is likely to be much better – not quite back to “normal”, but as the vaccine continues to roll out and COVID numbers drop off, California is easing its way back to a pre-COVID lifestyle.....[Click Here](#) to read about returning to in-person gatherings for our organization and more...

Consolidated Appropriations Act 2021

Virtual Meeting Topics for May

This month we continue to highlight popular topics surrounding today's industry. The hot topic of the month is the **Consolidated Appropriations Act of 2021** which will mandate reporting your commissions to all of your clients. This topic will be presented by Marcy Buckner, VP of Gov. Affairs at NAHU. We will also have a vaccine update from the Chief Medical Officer at Sante Community Health Systems, Dr. Michael Synn, MD.

Provided by NAHU for you!

The Biden administration has opened a one-time special enrollment period on HealthCare.gov (the federally-run marketplace/exchange), running from February 15, 2021, to May 15, 2021.² And all of the states that run their own exchanges have followed suit, although the specific details vary by state. NAHU has given us special content for you to share on your social media platforms..

The American Rescue Plan Act of 2021

Feature Article: The American Rescue Plan Act (ARPA) of 2021 and Related Legislation; A Whirlwind of Funding and Entitlements Throws the Health Insurance Industry Into Turmoil!
A Salute to Those That Made it All Happen!

By: Dorothy Cociu, RHU, REBC, GBA, RPA
CAHU Vice President, Communications,
Sourced from CAHU's The STATEment

This article is dedicated to the Health Insurance industry... To the carriers, the third party administrators, the general agencies, the benefits attorneys, the benefit consultants, and the related companies that were all, whether we liked it or not, thrown into turmoil, and studied, trained and implemented what was and is needed due to these new laws, and helped the most affected; the insureds, the employers that sponsor health plans, the Medicare recipients, and many more, often times with little or no additional compensation, and with very little sleep these past several months! This is my salute to all of you!

May Membership Update

Welcome New Members:

John Calmes, Calmes Insurance Services

Next month we will highlight all current members of CCAHU.... It's because of you that we can call ourselves an organization. Thank you!

May Charity Spotlight: Buy Tickets!!! Marjaree Mason Center:

"The Marjaree Mason Center continues to provide 24/7 support to prevent tragedies like Marjaree's. While we remain committed to helping survivors and families escape domestic violence, unfortunately such tragedies continue. Just this week, there have been three domestic violence-related homicides. Our hearts are with the families and friends affected by the loss of a mother of six in Fresno and a young woman and her brother in Hanford." **24hr Crisis Hotline 559-233-HELP (4357)**
